8.6 System Telephone Naming

You can assign a name that is either a personal name or a group name to each system telephone. This name can be up to seven letters in length and will show up in the user's display and/or in the called party's display. You can compose a valid name from any alpha-numeric character; however, the first character of a display name must be an alphabetic character. Typical names could be SRVC, MKTG 1, and K SMITH. When appropriate programming action has been taken by the installer, a second line showing the personal intercom number of the calling station is also displayed.

• **Name the system telephones as follows:**

1. USE letter code table to compose names for all telephones requiring them (up to seven letters per name are allowed)
2. PRESS INTERCOM.
3. DIAL *#0*53.
4. SELECT telephone to be named by dialing the extension number DIAL number plus # if extension number is less than 4-digits).
5. DIAL # to clear any current entry.
6. DIAL 2-digit codes that correspond to letters in name (station names must begin with a letter).
7. DIAL # to save name or save cleared name.
8. REPEAT steps 4 through 7 until all telephones are named.
9. PRESS SPEAKER to end.
